GREETINGS FRIENDS,

Thank you so much for your heart and passion to mobilize your church in anti-trafficking efforts. Human trafficking is a reality in every community and sadly the fastest growing criminal enterprise in the world. Much of why this evil exists is a result of what is broken in our society today–the family structure, our culture, loop holes in our laws, and of course greed.

Fortunately the Church has the answer: Jesus! As sad as human trafficking is, our loving Heavenly Father has chosen and prepared us, His Church, to respond to this atrocity. We have the power of Christ to significantly impact those affected by human trafficking and the potential to end it by educating the body of Christ and providing resources and a platform with opportunities to get involved.

Church members are eager to serve and Christ is honored when we serve as One. This material is designed specifically for the Church with input from local pastors and those engaged in anti-trafficking efforts. Our prayer is that this material will be a powerful resource to mobilize your church.

Together we can make a difference to the vulnerable and exploited in our communities.

God bless, Dr. Gary Tribbett President and Co-founder, Compassion Connect gary@compassionconnect.com www.compassionconnect.com | www.abolitionnow.com

ABOUT HUMAN TRAFFICKING

TERMINOLOGY

Human Trafficking is modern day slavery that exploits men, women and children by means of forced labor or sexual exploitation against their will.

Sex trafficking is the recruitment, harboring, transportation, provision or obtaining of a person for the purpose of a commercial sex act, which is induced by force, fraud, or coercion or when someone is deceived into prostitution.

Commercial Sexual Exploitation of Children (CSEC) is a commercial transaction (an exchange of money or services) that involves the sexual exploitation of a child, such as the prostitution of children and child pornography.

Prostitution: A person commits the crime of prostitution if they offer or agree to engage in sexual conduct in exchange for a fee.

Trafficker/Pimp: A trafficker or pimp is one who gains or profits from exploiting another person for forced labor or commercial sex.

Tricks, johns, dates: Buyers of commercial sex.

Survivor: One who has been sex-trafficked.

"The Game" or "The Life": Slang for prostitution.

WORLDWIDE SCOPE OF THE PROBLEM

- » Human trafficking has become the fast growing criminal enterprise in the world.
- » Victims can be sold over and over while guns and drugs have to be replenished once sold.
- » Pornography, social media, chat lines, online escort service websites, massage parlors, strip clubs, and brothels/homes are all means by which victims are being exploited and trafficked.
- » Estimates of victims being trafficked worldwide are unknown because human trafficking is largely an underground operation.
 Victims don't self-identify or often escape their captors, and therefore confirming numbers is difficult.
- » Human trafficking exists in nearly every city in the world and crosses all social and economic borders.
- » Poverty creates situations where many parents traffic their own children to survive–especially in third world countries.

HUMAN TRAFFICKING IN THE U.S.

Much of why this evil exists is a result of what is broken in our society today:

- » Disregard for biblical, moral and ethical standards and principles.
- » Break down of our families.
- » An over-sexualized culture and what is acceptable or "normal."
- » Commercialism and unrestrained individualism.
- » Loop holes in our laws and courts that prevent decency laws.
- » Drug dependency leads traffickers and relatives of victims to supply their addiction by means of selling family members.

HUMAN TRAFFICKING IN THE PACIFIC NW

- » Portland's abundant sex industry, largest number of strip clubs per capita (at least 50 are all-nude), and the location of Portland on the main 1-5 corridor, all create a magnet for sex trafficking.
- » Local law enforcement estimates approximately 150-200 underaged girls may be trafficked at any given time in the Portland area. Numbers are much higher when including adults and victims who have not been identified.
- » Portland has a large population of homeless youth. Teen runaways become high risk of being lured into trafficking as means of surviving on the streets.

HUMAN TRAFFICKING IN THE PACIFIC NW

- » Over the last 5 years, local law enforcement has seen a steady decrease of known or suspected trafficked victims in the Portland area. This is a result of the great work of the anti-trafficking task force, changes in laws, and heavier sanctions for buyers.
- » Number of human trafficking victims: There is no way to track unidentified victims, therefore, the number of trafficked victims in the Northwest is unknown.
- » According to a 2013 PSU study, the average age of sexually exploited being trafficked in Portland was 15.5 yrs old.

CONTRIBUTING FACTORS

» **Greed:** Traffickers can easily make \$1,000 a day per girl and are usually trafficking several at a time, resulting in an extremely profitable "business." It's estimated that pimps make several hundred thousand dollars per year.

» Vulnerability:

- » Over 80% percent of sexually exploited children have a history of being sexually abused.
- » Many runaways or missing children end up being lured into sex-trafficking within 72 hours of being reported missing.
- » A large percent of trafficked victims have been through the foster care system.
- » The internet and social media make children vulnerable to predators.
- » Every child is at risk. Education and prevention measures can help avoid a victim from being lured into a trafficking situation.
- » **Culture:** Acceptance of pornography, the sex industry, the sexist fashion & beauty industry, and the way capitalism makes women's bodies a commodity and a method of selling products.

WHERE DOES SEX TRAFFICKING TAKE PLACE?

- » Sex trafficking happens in venues including massage businesses, escort services, residential brothels, in public on city streets or cars, at truck stops, strip clubs, hostess clubs, hotels and motels, private homes, and elsewhere.
- » Anywhere there is a demand.
- » In every community.

HOW ARE VICTIMS RECRUITED?

- » Pimps and recruiters hang around schools, malls, bus stops, the Max, coffee shops, parties and other places teens frequent.
- » Trafficker use traps to lure girls into "the life." The most common tactic is to befriend her, give her compliments and attention, date her for a period of time and eventually exploit her. It's entrapment by deception.
- » Kids seeking love and affection, or with other unfulfilled emotional needs are the most vulnerable to pimps and the promises of the "better life" they offer, but ALL kids are at risk.
- » Girls trapped in sex-trafficking are often used to recruit other teens.
- » Kids are recruited online.
- » "Gorilla" pimp tactics are used to quickly coerce girls into sex trafficking by intimidation, threats, drugs, gang rape, torture and other violent methods.
- » Pimps tattoo or "brand" girls to become the "property" of the trafficker.

COMMON MYTHS

MYTH: Portland is the worst in the nation for sex-trafficking.

TRUTH: Portland does not have the highest rate of sex-trafficking in the United States. Recent reports indicated Portland was not even listed in the top ten cities.

MYTH: Teenage girls are "prostitutes."

TRUTH: Sexually exploited youth are *victims*, not prostitutes or criminals.

- » All minors engaging in commercial sex are considered victims of sex-trafficking according to federal and state laws.
- » Victims of commercial sexual exploitation are seduced, coerced, tricked or forced into prostitution.
- » Pimps seek out youths' vulnerabilities and exploit their hope for love, desire for security/protection, and need to obtain basic needs (i.e. food, shelter, and clothing).
- » Children don't have the mental capacity to make adult decisions because their brains are not fully developed until age 25.

MYTH: The average age a youth is first exploited or trafficked is 12-14 years old.

TRUTH: This is a widely used statistic by many official government agencies and anti-trafficking organizations and has no sound research and is therefore unreliable. While we do know girls younger and older than that age range are being recruited and exploited, the truth is, no one knows what the "average" age is.

MYTH: Statistics are accurate.

TRUTH: There are a lot of facts and statistics about sex trafficking. Because the nature of this dark industry is not only subversive, but constantly changing, such numbers are difficult to confirm and become outdated quickly. Because children do not self-identify, numbers only reflect those who have been identified as exploited or trafficked. No one really knows the true numbers, but we do know that there are more girls being trafficked than people to rescue them.

COMMON MYTHS

MYTH: Human trafficking is a crime and therefore it's the Justice system's problem.

TRUTH: It's everyone's problem. These are God's children and He loves and cares for each one so we have a biblical obligation to care for the poor, vulnerable, and oppressed. This is our next generation.

MYTH: There is nothing "I" can do.

TRUTH: Everyone can pray. Everyone can spread awareness. Everyone has something to offer--God will use every gift, time, and talent as a fragrant offering to accomplish His will to rescue the oppressed and vulnerable from the grasp of evil. Everyone must "Do Something" if we are going to END human trafficking.

BIBLICAL MANDATE FOR INVOLVEMENT

There are at least four biblical concepts directing the church to involve themselves in efforts to stop human trafficking.

- 1.The sovereignty of God, the will of God and justice in Scripture. We already know that God has the sovereignty and power to do whatever He wishes. He is not limited in his ability or authority to end human trafficking immediately. We do struggle, however, with whether or not God will. We know He can but question his will. To know whether or not God will, we can ask the Scripture, "Is sexual exploitation God's will?" Is it God's will that a 45-year old man rape a 14 year old girl in a sleazy motel? Let's look at scripture. One reoccurring theme in the Scripture is the indignation of God for injustice to orphans. He cares about their welfare and expects us to care for them as well (Deut. 10:18, 24:17, 27:19; Isa. 1:17; Jer. 5:28; Mal. 3:5; James 1:27.) It is the will of God that we protect widows, orphans, and children, not abuse them. Therefore we can assume that God will bring deliverance from sex-trafficking and is waiting for people to do their part in stopping it.
- 2.The mission of Jesus. Jesus read his mission statement from Isaiah, chapter 61:1 (ESV): "The Spirit of the Lord God is upon me, because the Lord has anointed me to bring good news to the poor; He has sent me to bind up the brokenhearted, to proclaim liberty to the captives, and the opening of the prison to those who are bound." Jesus's clear mission was to preach the good news, bind up the brokenhearted, liberate the captive and release those who are bound. His redemption on earth was to bring people out of slavery and sexual sin and to release those who are trapped in it. The church is to take that mission and carry it to the ends of the earth.

BIBLICAL MANDATE FOR INVOLVEMENT

- 3. The commission of the church. The church is God's plan for bringing all nations to an understanding and practice of Jesus' commandments, as said in Matthew 28:18-20 (ESV): And Jesus came and said to them, "All authority in heaven and on earth has been given to me. Go therefore and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, teaching them to observe all that I have commanded you. And behold, I am with you always, to the end of the age." It is the church's role to carry out Jesus's mission to set captives free and proclaim good news to the poor. This is accomplished through prevention, awareness and aftercare.
- 4. The empowerment from God through the filling of the Spirit of God. God has given his Spirit to empower every believer to fulfill the mission of the church (Acts 1:78, 2:4, 2 Cor. 10:3-5; Eph. 6-10). We believe that it is God's desire to end trafficking through the work of the church empowered by the Spirit of God and acting in faith.

"Thanks for understanding and listening to me yesterday, it really cheered me up knowing you care and you reminded me | have worth."

COLLABORATION AND WHY IT'S ESSENTIAL

- » Civic and church collaboration:
 - » Portland's anti-trafficking task force is a very dedicated and successful team but one entity cannot solve the issue of human trafficking.
 - » Portland civic leaders, law enforcement, Department of Human Services, Sexual Assault Resource Center, and other advocates have invited the Church to partner with them to support and engage in anti-trafficking efforts.
- » There are numerous organizations in the Northwest committed to anti-trafficking efforts, creating a need to work together. (See list of Northwest organizations)
- » Current cooperatives:
 - » FREE PDX: A common anti-trafficking vision for the church led by key pastors in Portland www.freePDX.org.
 - » Bridging the Gap: An intranet based network for the church and non-profit organizations to collaboratively support and supply resources for sexually exploited victims. Ministries and organizations with a 501c3 status can check it out at www.btgpdx.com.

EMBRACE

Embrace Oregon seeks to connect caring people with vulnerable children through partnership with Department of Human Services Child Welfare for the thriving of our communities. As the faith community, we desire to be the ones who can offer Differential Response and wrap around these vulnerable families and children in our community and walk alongside to provide support before children are taken into DHS custody, recognizing that being removed from your home and placed in foster care is often very traumatic for children.

Get Involved:

- » Make Welcome Boxes for children entering foster care.
- » Help spruce up your local child welfare office where vulnerable children in state custody spend time.
- » Provide encouragement to local DHS Child Welfare staff.
- » Invite the Heart Gallery to come and put photographs (of legally free adoptable children lingering in foster care) in your church lobby to raise awareness that children in our community are waiting for families.
- » Host orientation meetings. Foster parents from your church along with local DHS contacts can host an information session about becoming a foster parent.
- » Host a movie night about foster care followed by a panel of those who were foster children themselves.
- » Offer space within your faith community for kids in foster care to get more time with their siblings or birth parents.
- » Offer space for hosting Foundations Training for prospective foster parents.
- » Start a Foster Parents' Night Out (Once a month churches and volunteers partner with DHS Child Welfare to provide a night of respite for foster parents while kids have a safe and fun experience). Please visit www.fpno.org for more details.

EMBRACE

- » Provide opportunities for people within your congregation to understand God's heart for vulnerable children and the theology of foster care as a ministry.
- » Create Hygiene Kits: Hygiene kits are given out by DHS to vulnerable families in your county.
- » Create Apartment Starter Kits: Children in the foster care system "age out" of the system regularly without the support of family that so many of us count on. Apartment Starter Kits are an encouragement to kids that someone is thinking about them in this time of transition.

FREEWAY 418

FreeWay418 is part of International Teams. Our purpose is to help end slavery in the greater Portland area and beyond. In our efforts to fight child sex trafficking, our work is raising awareness AND working toward prevention. We've come to realize that so many of the underlying causes of sex trafficking are issues of broken community, broken families, and broken individuals (the same fundamental issues addressed in community transformation). We have the goal of seeing every student and every community member educated about child sex trafficking and then encouraged and equipped to do something to help end it. We teach prevention education in schools, churches and civic clubs, and assist and partner with other organizations in the work of restoration for survivors of sex trafficking. Our primary focus is in the Rockwood area.

Killing Us Softly 4: Advertising's Image of Women

Breaking down a staggering range of more than 160 print and television ads, Jean Kilbourne uncovers a steady stream of sexist and misogynistic images and messages, laying bare a world of frighteningly thin women in positions of passivity, and a restrictive code of femininity that works to devalue girls and women in the real world. Both provocative and inspiring, Killing Us Softly 4 stands to challenge yet another generation... to take advertising seriously, and to think critically about its relationship to gender violence and exploitation, sexism, eating disorders, and contemporary politics.

SPEAKERS:

ORGANIZATIONAL DEVELOPMENT AND CONSULTING MICHAEL GEIGER

Mike Geiger has over two decades of experience working with criminal justice, governmental, private sector and faith based groups to identify and correct organizational and structural deficits that limit growth and success. With over 20 years as a Portland Police officer–the last 13 years in Sex Crimes, Homicide and Human Trafficking, Mike is a recognized leader in the field of anti-trafficking collaboration efforts in the U.S. and worldwide. He is also a speaker of numerous conferences and events.

In 2008, as supervisor of the Sex Crimes and Human Trafficking Division, Sergeant Mike Geiger (now retired), initiated a significant change within the Portland Police Bureau by shifting the investigations of Human Trafficking from the Drug Unit to the Detective Division's Sex Crimes Unit. This strategy was part of an overall effort to redefine the way the Portland Police respond to some of the most vulnerable in our society. The move was built on strong relationships and one guiding principle: the restoration of victims without causing them further harm. Organizations, that were historically at odds with each other, were successfully brought together to work collaboratively on anti-trafficking efforts. Excellent relationships with faith based groups were built to help them navigate the difficult waters of government, private sector and Faith based organizations. This also guided and restructured organizations that needed course correction and a new development plan.
